

Workplace Charging Challenge Agreement

This agreement states that _____ (Workplace Charging Partner) has joined the Drive Electric Northern Colorado Workplace Charging Challenge on ___/___/___ (Date) in an effort to advance the adoption of electric vehicles in the Northern Colorado region. Workplace charging not only instills range confidence with existing and potential EV owners by offering a full day's worth of charging services, but also has the capacity to help drive EV adoption within your workplace. In providing this service, _____ (Company Name) will also benefit from a strengthened sustainability platform by helping to reduce the impact of employee transit, as well as the networking opportunity of joining other companies in the region in this challenge.

As a Workplace Charging Challenge partner, _____ (Company Name) commits to install charging station(s) available for use by company employees within _____ (Agreed upon time frame) of signing this agreement. In order to provide the best possible service to its employees, the participating company also agree to assess the following before installation:

Installation location

- Explore opportunities to install stations at preferential parking locations.
- Consider future, additional build outs and where those could be installed.

Payment strategy

- If possible, offer charging services for free.
- Explore employee benefit package.

Charging station equipment

- Determine appropriate infrastructure
- Install Level I or Level II charging stations

Promote availability to employees

- Explore and establish internal messaging tactic to reach out to employee base about the available charging stations.
- Work with DENC to host an employee Ride and Drive, and/or participate in the Leadership Drive program to further promote charging availability.
- Work with DENC to publish a blog featuring _____ (Company Name) and the planned availability of charging stations.

_____ (Company Name) and Drive Electric Northern Colorado (DENC) are excited to work together on this important initiative.

Check here if you do not consent to participate in the Department of Energy Workplace Charging Challenge.
